March 14, 1979

State Engineer
Division of Water Resources
201 S. Fall Street
Carson City, Nevada 89710

Per our meeting in your office on December 26, 1978, this application to change point of diversion, place of use and manner of use is being made at the instance of **P.V. FARMS**, due to the fact that industrial and stockwatering uses no longer exist within Palomino Valley. In order to insure against forfeiture of this existing certified right this application is made to change to irrigation use the water heretofore appropriated under certificate number 5944.

Along with the above mentioned changes a request is hereby made to allow the maximum duty of 11.61 acre feet to be diverted during the normal irrigation season. It is understood that the amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed a seasonal duty of 4.0 acre-feet per acre of land irrigated from and and/or all sources.

Sincerely,
